Dance Floor Size Guide

Guest Count	# of Dancers	Recommended Dance Floor Size	Dance Floor Square Footage	# of Dance Floor Sections (2'x2')
60	20	12ft x 12ft	144	36
90	30	14ft x 14ft	196	49
150	50	16ft x 16ft	256	64
200	70	18ft x 18ft	324	81
230	80	20ft x 20ft	400	100
275	90	22ft x 22ft	484	121
375	110	24ft x 24ft	576	144
450	155	26ft x 26ft	676	169

Legend:

Guest Count: the number of guests that will be attending your event

Of Dancers: estimated number of dancers based off of the guest count (good rule of thumb: 33%)

Recommended Dance Floor Size: estimated dance floor size to accommodate your guest count

Dance Floor Square Footage: square footage of your recommended dance floor

Of Dance Floor Sections (2'x2'): number of 2'x2' sections required to create your recommended dance floor

*Please Note: A Gogo offers 2'x2' dance floor sections to create your dance floor

Dance Floor Example

The above example is 16'x16' dance floor made up of (64) 2'x2' sections.

The math behind it:

- (8) 2'x2' sections {Height} x (8) 2' x 2' sections {Length} = (64) 2'x2' sections required for a 16'x16' dance floor
- 16'x16' dance floor would accommodate 150 guests or 50 dancers
- Total of 256 Square Feet in a 16'x16' dance floor
